# *"LIFE IS ONE BIG ROAD WITH LOTS OF SIGNS."*

---

- BOB MARLEY

Established in 1998, and founded by master engineer, and artist, Tim Brown (creator of the original sign frame), 4EVER Products is a purveyor and builder of hand-made, high quality custom sign systems.

At its beginnings, 4EVER Products filled a void in the sign industry by offering immediate turn-around on a high quality, easy to use product. The vinyl sign system quickly grew into an industry standard.

In 2009, 4Ever Products was acquired by Provel. The new capital investments and technologies strengthened the product line and further cemented the company's position as the industry leader. 4EVER Products has been able to meet and

exceed the evolving needs of modern consumers by adding additional products, as well as developing many custom accessories.

We are lovers of our trade and craft. We take great care and caution into hand picking and hand crafting the most sustainable products in our industry and always have our eyes on the future.

We work hard to find the best talent to join our team and work equally hard to provide a challenging and rewarding environment to motivate and bring out the best in them. We make sure to cultivate a product and a work culture that is reliable, built to last, supportive, self-starting, and positive.

## Care and Installation

Wash vinyl products with a soft cloth or long handled soft bristle brush (similar to what you would use on your vehicle).

- If there is a stain which becomes difficult to remove, wipe down with one cup of Simple Green® or equivalent mixed with one gallon of water. The solution can be put in a spray bottle, sprayed on and wiped off quickly with a soft cloth. You can also mix 1/3 cup mild detergent such as Tide® or equivalent, 2/3 cup household cleaner such as Spic & Span® or equivalent with one gallon of water. Rinse all cleaners with water before they dry.
- Follow the precautionary instructions on the container label. Protect all vegetation from direct contact with the cleaning agent.

- 1 The first method is using direct burial. The posts would need to be buried into the ground at least 2' and stabilized with cement.
- 2 The second method would be to use wooden 4x4s to reinforce the posts. We recommend leaving a space of 12" in between the bottom vinyl rail and the top of the wooden post.
- 3 The third method is using the Ground Breaker Stake. This stake system is recommended for a short term installation or a sign that will be moved around.

# VINYL REAL ESTATE POSTS

## Product Description

Our **Aluminum Real Estate Sign Posts** feature a vertical post in two easily assembled pieces. These posts are powder coated in a variety of colors, ensuring durability and aesthetic appeal. Included in the package are aluminum caps for both the post and arm.

## Inclusions

Included in the package are all the necessary hardware components for hanging your sign:

- sturdy steel ground stake
- eyebolts
- safety pin clips
- sign rider clips with accompanying screws

## Customization Options

Custom post and arm lengths available upon request, please allow extra time for fabrication. Customization will add time to order processing.

## How to Install?

# SINGLE PANEL ARCHITECTURAL FRAME

available in multiple colors

The Single Panel Architectural Frame System is a sleek, single-panel, aluminum frame system that is easy to assemble and install. It is great for permanent applications, with the bonus of being able to easily remove the panel with a screwdriver. The sign kit is crafted from aluminum with a durable powder-coated finish and made to order based on the size of your substrate.

- Choose between a square or semi-round post
- Accepts 3MM and 6MM substrates
- Requires one panel with a print on one or two sides
- Approximately 3/4" is covered on edge of each panel
- Post length is 8' max
- Size of post is 2 1/2" x 3"
- Assembles in 5-10 minutes
